Welcome Screen

The **Welcome Screen** is an **Announcement** window shown to **managers** (not subscribers) when they open the admin panel dashboard, for example news, price changes, holiday opening hours or contact details.

Setting it up

1. Open *Settings* → *notifications* and turn on **Show Welcome Screen On Login**.
2. Click **Screen Editor**.
3. Write the message in the editor (bold, colours, links, images). Use the **</>** button to edit the HTML directly.
4. Click **Save**. **Reset** reloads the last saved text.

- Managers can close the window. It appears again each time the dashboard is opened.
- To stop showing it, turn off **Show Welcome Screen On Login**.

Required permission: Settings - System Settings
